OPEN TO *EVERYONE!*

History

In 2001, a medical mission station was established in the center of Pagudpud by mission-minded Physicians from the US who wanted to help the people in the community thru their expertise in giving medical care and to introduce Jesus Christ thru the healing ministry. In 2009, the pioneers decided by God's guidance, to finally provide a long term medical and spiritual healing center in Pagudpud. Through fervent prayers and faithful giving from fellow brethren in the US, the Pagudpud Adventist Wellness Center was established. Presently, the institution is progressing and improving in its services and equipment, providing better, faster, and quality patient care to the community. We desire to be a center of influence that draws others closer to our Lord and Saviour, Jesus Christ.

Location

Vision- To be a center of health and lifestyle providing holistic healthcare services to everyone and sharing the love of the Lord Jesus Christ through the ministry of healing.

MISSION- To provide quality care to everyone through medical and educational opportunities in the surrounding communities with the love and care of Jesus Christ and to see all people as created children of God who deserve quality medical care and spiritual encouragement"
